

COLUMBAN CHURCH INFORMATION

The Diocesan Shrine & Parish of St. Columban in Olongapo City is located at 1 First St., New Asinan, Olongapo, Philippines, 2200, and can be contacted by phone at (047) 222 2536. Their hours are Monday to Wednesday and Friday from 9 AM to 5 PM, Thursday from 9 AM to 5 PM, and Saturday and Sunday from 9 AM to 12 PM.

PROGRAM EDUCATIONAL (ENGINEERING)

OBJECTIVES (PEOS)

1. The graduates of the different programs exhibit analytical and critical thinking, creativity and innovativeness in the field of engineering.
2. The graduates of the programs use mathematical and scientific knowledge and skills in dealing with complex engineering problems and real life situations.
3. The graduates of the programs utilize technological tools, techniques, methods and processes related to engineering.
4. The graduates of the programs demonstrate the ability to work independently and collaboratively in a multi-disciplinary and multi-cultural environment.
5. The graduates of the program meet the expectations of the industry, have effective oral and written communication skills and commit themselves to life-long learning; and
6. The graduates of the program demonstrate compassion, humanity, deep sense of nationalism commitment to social transformation, and an ability to act as a steward of God's creation and His people to exude the St. Columban Spirit.

ENGINEERING VISION

Guided by the Catholic faith and culture of excellence, the College of Engineering shall be an innovative institution of learning, extension and research for future professional engineers who are to become responsive to the demands of local and global development by 2025.

ENGINEERING MISSION

As a Catholic institution, we transform lives through holistic engineering education, Christian formation, and service.

ENGINEERING GOAL

The College of Engineering is committed to:

- Develop practical engineering design technology through research without compromising ecological balance and global harmony.
- Keep abreast with the latest trends in engineering design technology.
- Ensure harmonious relationship among stakeholders with shared values.
- Promote human dignity and Christian values in the midst of human achievements.
- Provide lifelong learning through continuous student development program.

ENGINEERING ACCREDITATION

The College of Engineering strives to provide its students the best quality education that I can offer. In this regard, the college regularly experiences accreditation visits.

1. Bachelor of Science in Civil Engineering - PACUCOA Level 2
2. Bachelor of Science in Civil Engineering - PACUCOA Candidate Status
3. Bachelor of Science in Civil Engineering - PACUCOA Candidate Status

ENGINEERING FULL-TIME FACULTY

Name: Engr. Paolo F. Obero

Position: Chairperson (Civil Engineering)

Other Roles: PICE Adviser, Surveying Laboratory Custodian

Name: Engr. Sally G. Corpus

Position: Chairperson (EE/ECE)

Other Roles: NEE and IECEP Adviser, Electrical and Electronics Laboratory Custodian

Name: Engr. Gerald Ryan M. Garcia

Position: Chairperson (IE/CpE)

Other Roles: PIE and GEAS Adviser, Chemistry and Physics Industrial Laboratory Custodian

Name: Engr. Edwin V. Grate

Position: Overall Laboratory Custodian

Name: Engr. Aldrin D. Burlaza

Position: Soil Mechanics and Hydraulics Laboratory Custodian

Name: Engr. Noel Lyncoln Sayno

Position: COE–CSC Adviser

Name: Engr. Caroline B. Paule

Position: Computer Laboratory Custodian

Other Roles: ICpEP Adviser

ENGINEERING PART-TIME FACULTY

Name: Engr. John Jericho Ladrangan

Program: BSCE Faculty

Position: Chief, Planning and Design Section

Organization: DPWH Zambales 2nd District Engineering Office

Name: Engr. Ryan Mina

Program: BSCE Faculty

Position: Cost Estimation Senior Engineer

Organization: National Grid Corporation of the Philippines (NGCP)

Name: Engr. Jomel Libut

Program: BSCE Faculty

Position: Officer-in-Charge, Utilities Department

Organization: Subic Bay Metropolitan Authority (SBMA)

Name: Engr. Ferdinand Edquiban

Program: BSEE Faculty

Position: Project Development Officer III

Other Roles: Designated Electrical Engineer, Project Management Office, Building Permit Safety Department

Name: Engr. John Ronald Enriquez

Program: BSEE Faculty

Position: Energy Manager

Name: Engr. Mary Ann Santiago

Program: BSEE Faculty

Position: Teacher III

Organization: Olongapo City National High School (OCNHS)

Name: Engr. Benedict Interino

Program: BSEE Faculty

Position: Resident Engineer, Pollution Control Officer

Organization: Shopping Center Management Corporation

Name: Mr. Ernest Nobleza

Program: BSCpE Faculty

Position: Design and 3D Engineer

Organization: Subic Bay Metropolitan Authority (SBMA)

Name: Mrs. Maria Cecilia Baldue

Program: BSIE Faculty

Position: Teacher II

Organization: Barretto Senior High School, St. Joseph College, Inc.

ENGINEERING ORGANIZATIONAL CHART

MOST REVEREND BARTOLOME G. SANTOS JR., D.D.

CCI President

DR. ERIC A. MATRIANO

Vice President for Finance and Administrative Services

DR. DAVID C. BUENO

Vice President for Academic Affairs and Student Services

ENGR. VIVIAN E. GUTIERREZ

Dean, College of Engineering

MS. KATHERINE M. CAMARAO

Secretary

MR. DANIEL D. SALAZAR

COE Student Assistant

MR. JIMMY YABUT

COE Student Assistant

How to access Pinnacle Student Access Module

To access the Columban College Pinnacle student module, visit <https://aims.pinnacle.com.ph/columban/students/> and log in using your student number as the username and your password. The system is used for online enrollment, viewing grades, and other student services.

Steps to Access the Student Module:

1. URL: Go to <https://aims.pinnacle.com.ph/columban/students/>.
2. Username: Enter your student number.
3. Password: Enter your designated password.
4. Birthdate: Enter your birthdate.
5. Forgot Password: If you cannot remember your password, there is a "Forgot your password?" option available on the login page.

Important Notes:

For New Students: Use the applicant module at <https://aims.pinnacle.com.ph/columban/applicants/>.

Support: For any issues, you can contact the Admissions and Registration Office (ARO) at registrar@columban.edu.ph or call (047) 222-3329 loc. 121.

System Update: The system was migrated to the cloud, so ensure you are using the updated aims.pinnacle.com.ph link.

How to check grades online

Columban College students can check their grades online by logging into the AIMS (Academic Information Management System) Student Portal at <https://aims.pinnacle.com.ph/columban/students/>. Users must enter their student ID number, password and birthdate to view their records, often requiring the completion of faculty evaluations first.

Steps to Access Grades:

1. Navigate to the Portal: Go to the official AIMS login page.
2. Log In: Enter your student credentials.
3. View Grades: Look for the Grades, Transcript, or Student Profile section to view current semester results.
4. Complete Evaluations: If necessary, click on the Faculty Evaluation tab to evaluate instructors before viewing grades.
5. Settle Outstanding Balance: Ensure that all financial obligations or account balances are fully settled, as grades may not be accessible if there is an unpaid balance.

If you encounter technical issues, contact the SCC MIS Official on Facebook or the institution directly.

How to Accomplish the Evaluation

1. Log in at: <https://aims.pinnacle.com.ph/columban/students/>
2. Enter your login credentials:
3. Click on the Faculty Evaluation tab.
4. Select the Academic Year and Semester, then click Set.
5. Click the course code in the second column to display the evaluation questions.
6. After answering the questions, click "Review Evaluation." If you are sure of your responses, click "Close" and then "Finish." Repeat this process for each subject.

Important Reminders:

1. All questions must be answered. You cannot proceed to the next page if any question is left unanswered.
2. Be fair in rating. This is not an opportunity to express personal grievances.
3. Your responses will remain confidential. Faculty will only receive aggregated scores and a summary of comments. Student identities will not be disclosed.
4. Provide meaningful feedback. Focus your comments on teaching effectiveness, classroom management, and student engagement rather than personal opinions.
5. Base your ratings on actual experiences. Evaluate your faculty based on your interactions and observations throughout the semester.
6. Be honest and responsible. Your feedback helps improve teaching quality and student learning.
7. Once submitted, responses cannot be changed. Ensure accuracy before final submission.
8. This evaluation is required before enrolling in the next term or requesting official documents.

How to setup MS Teams

To set up MS Teams at Columban College, obtain your official school Microsoft 365 account credentials, then download the app on your desktop or mobile device. Log in with your institutional email to access your classes, which are often added by faculty or accessed via specific class codes.

Steps to Setup MS Teams:

1. **Obtain Credentials:** Wait for the distribution of your official MS Teams/Office 365 account, specifically for freshmen and transferees.
2. **Download and Install:** Download the Microsoft Teams application on your computer or mobile device from the official Microsoft website.
3. **Log In:** Use the institutional email provided by Columban College and password you set.
4. **Access Classes:** Faculty in charge will generally add you to the respective class teams.
5. **Check for Updates:** Regularly monitor your email, MS Teams, and official class group chats for updates.

For technical assistance, contact the IT department or visit the Columban College official Facebook page for tutorials.

STUDY TIPS (Engineering-friendly)

1. Break complex problems into smaller steps before solving them.
 2. Study formulas by understanding how they work, not by memorization alone.
 3. Review your notes within 24 hours after class to retain information longer.
 4. Practice problem-solving daily, even for just 20–30 minutes.
 5. Use diagrams and sketches to visualize engineering concepts.
 6. Study with classmates to exchange problem-solving techniques.
 7. Focus more time on difficult subjects instead of rereading easy ones.
 8. Create summary sheets for equations and key concepts before exams.
 9. Teach a topic to someone else to check your understanding.
 10. Take short breaks during long study sessions to avoid burnout.
 11. Use past quizzes or exams as practice reviewers.
-

TIME MANAGEMENT TIPS (For busy Engineering students)

1. Use a planner or digital calendar to track deadlines and exams.
 2. Prioritize tasks based on urgency and difficulty.
 3. Start major projects early to avoid last-minute stress.
 4. Allocate fixed study hours each day and stick to them.
 5. Break large tasks into smaller, manageable activities.
 6. Avoid multitasking when solving technical problems.
 7. Set reminders for quizzes, submissions, and laboratory schedules.
 8. Study difficult subjects during your most productive hours.
 9. Limit distractions such as excessive phone or social media use.
 10. Schedule rest time to maintain focus and productivity.
 11. Finish quick tasks first to reduce mental load.
-

CAMPUS LIFE HACKS (Engineering-related)

1. Visit laboratories early to avoid crowded schedules.

2. Save soft copies of important files in cloud storage.
 3. Bring extra pens, calculators, or flash drives to campus.
 4. Know the locations of engineering offices and laboratories.
 5. Use free campus Wi-Fi for academic research and downloads.
 6. Ask upper-year students for tips on professors and subjects.
 7. Take photos of announcements or schedules posted on bulletin boards.
 8. Eat before long laboratory sessions to maintain energy.
 9. Learn shortcut routes between buildings to save time.
 10. Keep emergency contacts saved on your phone.
 11. Always carry your ID for campus access and transactions.
-

ENGINEERING COURSE SURVIVAL TIPS

1. Do not skip classes, especially problem-solving lectures.
 2. Practice calculations regularly to build speed and accuracy.
 3. Learn how to use engineering calculators efficiently.
 4. Ask questions when concepts are unclear—early is better.
 5. Expect challenges and failures as part of the learning process.
 6. Balance theory and hands-on laboratory work.
 7. Manage stress during heavy exam and project weeks.
 8. Collaborate but avoid copying work blindly.
 9. Maintain organized notes for each subject.
 10. Take care of your health to stay mentally sharp.
 11. Remember that consistency matters more than cramming.
-

Columban College TRIVIA (History & Campus)

1. Columban College was founded by Irish Columban missionaries.
2. The institution emphasizes values-based Catholic education.
3. The college offers programs in engineering, business, education, and more.

4. Columban College has multiple campuses serving different departments.
 5. The Engineering Department supports both theoretical and laboratory learning.
 6. The school promotes community service and social responsibility.
 7. Columban College integrates technology in modern teaching methods.
 8. The institution supports research and student innovation.
 9. Engineering students undergo hands-on laboratory training.
 10. The campus environment encourages discipline and academic excellence.
-

FUN FACTS ABOUT COLUMBAN COLLEGE

1. The college name comes from St. Columban, an Irish missionary saint.
2. Columban College combines faith, education, and service in its mission.
3. Engineering students often spend more time in laboratories than classrooms.
4. Campus buildings are named using letters for easier navigation.
5. The school hosts academic and cultural activities throughout the year.
6. Students from different programs share common facilities on campus.
7. Engineering laboratories are used for real-world simulations and experiments.
8. The campus serves as a training ground for future professionals.
9. Columban College values both academic excellence and character formation.
10. Many students develop lifelong friendships during their college years.
